Hello

Final Striping Changes Update

Weather. Always changing - rarely what we want when we want it.

This Monday morning the runway and taxiways are damp all over and have standing water in places from last night's rain. Not a workable combination when placing the final markings is very dependent on not only a dry surface, but also a reasonable mix of air temperature, humidity, and wind speed.

In concert with the contractor and our engineering team, we have pushed the runway closure 48 hours to offer the best opportunity to get long-lasting striping for our runway, taxiways, and taxi lanes. Monday (today) and Tuesday we are open for all normal operations.

NEW SCHEDULE: Wednesday, Thursday, and Friday this week we plan to be closed from 9AM to 7PM (local time) to all vehicle movement in the hangar areas, tie-down, the hot ramp, and on the runway.

As noted in previous emails, plan any necessary flying before or after the daily closure time window.

By prior agreement, Silverhawk Aviation Academy helicopters will be operating from the North Apron adjacent to the Hubler Terminal throughout the scheduled restriping days.

An additional bulletin will be issued if we need to make other schedule changes. The NOTAMs related to this effort will be cancelled when the contractor is done with the work.

Would you like to receive EUL NOTAMs?

Anyone with an email address can be included on the distribution list for every NOTAM that is issued by EUL. To make it happen, just give Lisa or Rob your email address. Then Rob will add you to the list and an FAA server will send you a confirmation message so you can acknowledge that you do want to receive the NOTAMs.
