

CONSTRUCTION UPDATE

Kimball Bridge Update

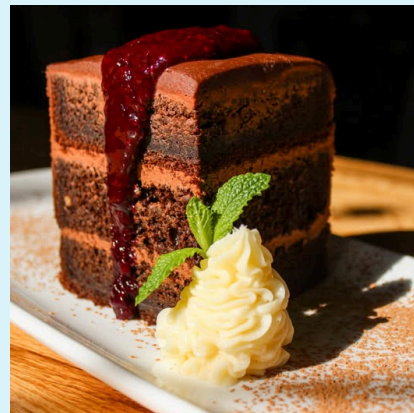

Crews brought in a crane last week and were able to install shoring in Indian Creek on the southeast side. The shoring will allow crews to begin installing a water diversion system to begin building the bridge.

Support Local Businesses!

Let's support our downtown businesses!

The bridge construction has resulted in less traffic to places closest to the bridge like Grit 2C and Flying M.

Come get dinner and dessert like this at the Grit 2C!

SAFETY REMINDER

The Kimball Bridge is **fully closed**. Please do not enter the work zone.

There is active construction equipment in the area and closures are in place to help keep everyone safe.

THANK YOU!
