

## CONSTRUCTION UPDATE

### Kimball Bridge Update

Crews placed concrete for the bridge abutment late last week. The contractor is continuing to work on dewatering for Indian Creek.

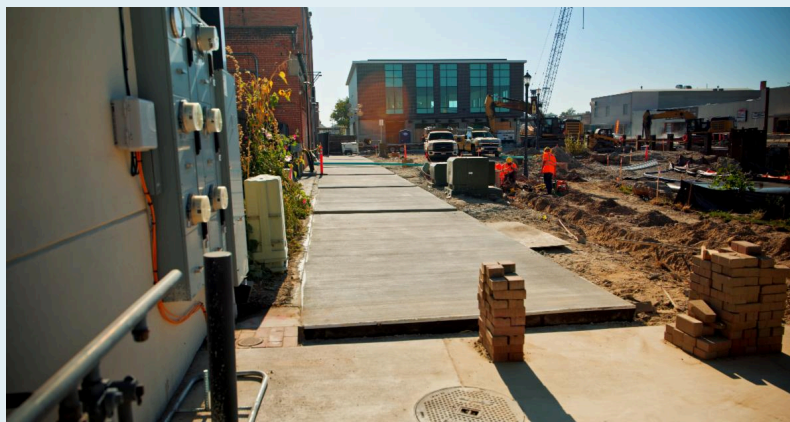

The dewatering of the creek is causing delays in the project schedule. Additional information will be provided soon.

### Kimball Mini Plaza and Alleyway Update

Crews will be working on the concrete approaches along Kimball Avenue. In addition, the contractor will be excavating to place concrete footings for the walls in the plaza.

Work is on schedule to be complete in November.

## SAFETY REMINDER

Please remember to stay out of the work zones as crews are trying to complete these projects.
