

NEWS RELEASE
Traffic Report

July 1, 2019
FOR IMMEDIATE RELEASE

Beginning July 9, the Caldwell Water Department will be reconstructing a water mainline on Ustick Road between Ashton Avenue and the Union Pacific railroad line. This work will necessitate traffic control with flaggers, detours, and road closures during different phases of the project. It is expected that Cleveland Boulevard will remain open throughout the course of the project but at times will be reduced to single lane traffic in each direction. Ustick Road will experience closures for portions of the project. Detours will be in place to provide continued access to local residences and businesses. The completion date for this project is expected to be September 30.
