FOR IMMEDIATE RELEASE

RE: City Sewer Services

Dear Citizens and Customers,

During this time, it is imperative that you are NOT flushing flushable wipes, sanitizer wipes or anything else that isn't toilet paper.

Sewer backups are becoming much more frequent because everyone is spending more time at home and trying to get rid of all the sanitizer wipes and flushable wipes they are using.

It's also a good idea, if you're able, to do more frequent inspections and/or jetting of the lines during this crisis when they are more susceptible to clogs and backups with all the non-flushable items being flushed.

Sewer backups are expensive to fix, and many are avoidable by just not flushing bad things.

Thank you for doing your part! We appreciate you, Caldwell!
