To whom this may concern:

On 04/08/2020 at 9:06am we received a call from a resident regarding a possible basement flooding. Chris Johnson, one of the wastewater operators went out on this call to 1109 Blaine Street Caldwell, Idaho.

It turned out that an irrigation line broke and surcharged our sewer line causing the residents basement to flood.

Action taken: We cleaned out our lines and created a SSO report. The Caldwell Lateral Irrigation District also repaired the broken irrigation line. Please see attached SSO report taken by Chris Johnson and pictures taken of incident.

Sincerely,
Salvador Arreola
Wastewater Plant Superintendent
