We've always used a bleach solution to clean tables, chairs and counters. We will continue and offer spray bottles of the solution for the activity leaders.

I'm sure things will come up that need updated or have been forgotten. We are ready to address any unseen problems.

I'd like to thank the leaders of our great state both state and city for directing our people to this point. I truly believe your leadership and guidance has given the people of Idaho a safe and better chance of surviving this pandemic.

Any suggestions are welcome.

Thank You,
