

CALDWELL RECREATION – PROTOCOLS FOR THE ROBERTS RECREATION CENTER

We are preparing to open the Roberts Recreation Center and begin offering youth camps and activities on June 1, Stage 3 of Idaho Rebounds.

Actions to take as we prepare to open the Roberts Recreation Center:

- Contact instructors to make them aware of new protocols for social distancing, hand hygiene and sanitation.
- Place CDC approved signage at all entrances and in highly visible locations.
- Post protocol information on the City Parks & Rec website and Facebook.
- Post new ENTRANCE and EXIT signs on the Roberts Recreation doors to direct the flow of traffic.

Protocols for the Roberts Recreation Center:

- Instructors, youth and their families may not enter the facility if either they or a household member has had onset of illness with symptoms compatible with suspected or lab-confirmed COVID-19 in the prior 14 days.
- Engage in physical distancing where practical.
- Practice good hand hygiene.
- Cover coughs and sneezes.
- Recommend the use of cloth facial covering or masks for instructors and students where possible.
- Hand sanitizer shall be provided.
- Limit the number of participants to allow physical distancing and prevent crowding.
- Limit spectators as needed to ensure physical distancing and public gathering restrictions.
- To direct the flow of traffic and minimize person-to-person contact, the GYM door will be used for entering the Rec Center Gym only. The DANCE door will be used as an exit for all activities held in the Gym. Activities held in the Classroom and Kitchen will use the appropriately marked doors for entering and exiting.
- Parents/guardians may drop off their child, 8 years and older, at the GYM door if they do not wish to enter the Rec Center Gym. Students will exit through the DANCE door at the end of class. Parents of children 7 years and younger may remain in the gym, maintaining appropriate social distancing from other spectators.
- Restrooms shall be disinfected at the beginning of and throughout the day.
- Frequently touched items shall be disinfected frequently throughout the day.
