Are you having trouble paying your utilities or rent?

Advocates Against Family Violence is a local non-profit organization that can provide assistance for homelessness prevention and utility assistance for eligible Caldwell residents. The City of Caldwell has partnered with AAFV to provide assistance for these programs.

The City of Caldwell is allocating funding received from HUD Community Development Block Grant CARES Act COVID Response to assist income-qualified households directly affected by this crisis. Additional funding may be available to assist Caldwell residents facing a non-COVID related emergency need. Household income qualification requirements are on the back of the flier. Please call for additional information about qualifying if your income has been significantly affected by COVID-19 crisis. Please contact Cindy Ware, at AAFV, for full program details.
