Status at time of this report: Compliant

Inspection Report

Dear Mr. Russi,

The City of Caldwell appreciates your compliance with the Inspire Technologies inspection conducted by City personnel on Wednesday, October 25, 2017. After reviewing the inspection field reports, notes, and available sampling results, we found that Inspire Technologies is in compliance with permit # 2006.001 at the time of this report. The City applauds your ability to meet pretreatment requirements.

We found your process and non-process areas to be adequately tailored to pretreatment requirements. Your pretreatment system is sufficient. Chemical storage and secondary containment of chemical and process areas are also adequate. Your required paperwork is in order and was submitted as follows:

Frequency	Document	Deadline	Date Completed
Monthly	<ul style="list-style-type: none">Flow Report	20 th of Each Month	All Reports Received
Annual	<ul style="list-style-type: none">TOMP and TTO StatementBest Management PracticesAccidental Spill and Slug Discharge Prevention PlanpH Meter Calibration	1/31/2017	1/27/2017*

* The TTO Statements was signed 1/27/2017, however TOMP was not sent on this date. A copy was produced during the inspection however, and had not changed from previous copies, and was therefore considered completed on time.

Over the Environmental Protection Agency's pretreatment reporting year from October 1st, 2016 through September 30th, 2017 Inspire Technologies has reported no permit violations.

Thank you again for your partnership with the City of Caldwell and your diligence in complying with your wastewater discharge permit. If you have any questions please feel free to contact the wastewater treatment plant at (208) 455-3027.

Regards,

Kaitlin C. Chattin
