I certify that this data is in compliance with requirements under 40 CFR §136 and other analytical requirements specified in NPDES permit ID0021504.

Please note the attached letter regarding a missed sample during the month of May.

Following an email conversation with Maria Lopez December 20, 2016, we used the 1985 EPA *NPDES Self-Monitoring System User Guide* as a guide for performing our DMR calculations per her suggestion, with the exception of following the 22<sup>nd</sup> Edition *Standard Methods for the Examination of Water and Wastewater* rules for rounding and significant figures (SM 1050).
